# The Categories of Risks Facing Watford Borough Council

Hazards and risks need to be taken into account in judgments about the medium to long-term goals and objectives of the organisation, as well as the day-to-day operations of the Council. These may be as follows: -

Category	Definition
Political:	those associated with failure to deliver either central Government policy or meet the administration's manifesto commitments
Economic/Financial:	those affecting our ability to meet financial commitments. For example, internal budgetary pressures, the failure to purchase adequate insurance cover, external economic changes or the consequences of proposed investment decisions. Monitoring of financial planning and control and internal funds.
Social:	those related to the effects of changes in demographic, residential or socio-economic trends on the organisation's ability to deliver its objectives.
Technological:	those associated with the capacity of the organisation to deal with the pace / scale of technological change or its ability to use technology to address changing demands. They may also include the consequences of internal technological failures affecting the organisation's ability to deliver its objectives. (e.g. IT systems, equipment or machinery).
Legislative/Legal:	those associated with current or potential changes in national or European Law (e.g., the appliance or non-appliance of TUPE Regulations, Human Rights Act, Data Protection Act, Disability Discrimination Act, etc.,). Risk related to possible breaches of legislation.
Environmental:	those related to the environmental consequences of progressing the organisation's strategic objectives (e.g., in terms of energy efficiency, pollution, recycling, landfill requirements, emissions, etc.,). Those related to pollution, noise or energy efficiency of ongoing service operations.
Reputational:	those related to the organisation's reputation and the public perception of the organisation's efficiency and effectiveness.
Competitive:	those affecting the competitiveness of the service (in terms of cost or quality) and / or its ability to deliver Value for Money.
Customer/Citizen:	those associated with failure to meet the current and changing needs and expectations of our customers and citizens.
Professional:	those associated with the particular nature of each profession
Physical:	those related to fire, security, accident prevention and health and safety (e.g., hazards / risks associated with buildings, vehicles, plant and equipment, etc.,)
Contractual:	those associated with the failure of contractors to deliver services or products to the agreed cost and specification.
