

Licensing Act 2003

SEU Café 26 Vicarage Road

Dear Sirs

Regarding the enclosed representation form I would like to clarify our reasons for objecting to the application for a Premises Licence.

The premises are in a residential and commercial precinct, we already have a problem with vagrants and street drinkers and young adults drinking in the evening and creating excessive noise, anti social activities including using the area as a public convenience.

These premises are very small and already have tables outside on the street, which we believe would encourage customers to drink outside.

Since the Café opened the noise levels in the precinct have increased and we are concerned that this would further increase should the premises be granted a licence. Local police have already been called to attend fights which in addition to the disturbance to local residents is an extra strain on police resources.

We wish for our names not to be made public as we live in an apartment opposite these premises.

Yours Faithfully

Clotilde Lockey
