

APPENDIX C - REVISED ASSURANCE DEFINITIONS/PRIORITY LEVELS

Assurance Level	Definition
Good	The design and operation of the internal control framework is effective, thereby ensuring that the key risks in scope are being well managed and core objectives will likely be achieved. There are minor reportable audit findings.
Satisfactory	The internal control framework is largely working well in managing the key risks in scope, with some audit findings related to the current arrangements.
Limited	The system of internal control is only partially effective, with important audit findings in key areas. Improvement in the design and/or operation of the control environment is necessary to gain assurance risks are being managed to an acceptable level, and core objectives will be achieved.
No	The system of internal control has serious gaps, and controls are not effective in managing the key risks in scope. It is highly unlikely that core objectives will be met without urgent management intervention.

Priority Level		Definition
Corporate	Critical	Audit findings which, in the present state, represent a serious risk to the organisation as a whole, i.e. reputation, financial resources and / or compliance with regulations. Management action to implement the appropriate controls is required immediately.
Service	High	Audit findings indicate a serious weakness or breakdown in control environment, which, if untreated by management intervention, is highly likely to put achievement of core service objectives at risk. Remedial action is required urgently.
	Medium	Audit findings which, if not treated by appropriate management action, are likely to put achievement of some of the core service objectives at risk. Remedial action is required in a timely manner.
	Low / Advisory	Audit findings indicate opportunities to implement good or best practice, which, if adopted, will enhance the control environment. The appropriate solution should be implemented as soon as is practically possible.
