Dear Sir

I think the application to extend the hours to be open to 11 pm is not needed. I opposed this when the shop first asked for a drinks licence. But it was given.

I have customers drive in my own drive and park to use this shop when there is no where to park. I have gone out to wash if I can help them, and have a noise when I have stated this is a private house, and not a place to park when using the shop. I all I get is so what, also I get bags of empty drinks bottles thrown over my fence from the lane. Which I have to pick up some times. I found food in these bags. Which I have to handle, and get rid of myself. I have had enough. Why be open to serve more drink, when the government is saying cut down. Local councils take no note of this. So its all a waste of time. I think 10 pm is long enough to be open in a local area. I hope you take note

the time
