Dear Austen,  
Thanks for your reply.

Sorry if my email was not clear.  
I do believe that the late licence would create a public nuisance because of the extra noise it would generate from the music and from people leaving the venue.

I appreciate that the club will be given conditions attached to the license. I can only hope that they adhere to these because it sounds like the decision has already been made to give them the licence.

Kind regards

Dear Austen Young

I am writing regarding the notice of application for Fullerians RFC reference [19/01705/CPCV](#)

I would like to make some comments about this application.

Late licences have previously been rejected in this area because of possible increase in crime and disorder and increase in noise and nuisance.

A licence for Daisy's in the park was rejected for example.

We are probably one of the closest houses to the club.

The noise travels very easily from the rugby club.

We are often woken up early in the morning by shouting from the team practising.

We can also hear the noise from the club when they have events on.

I do not object to this at reasonable hours but would definitely object at the hours being proposed.

Music until 12:30am is too late.

A 3am finish is unacceptable too. This is night club hours.

We are already disturbed by Sun Sports club around the corner.

I would like to add that we are members of the rugby club and we do enjoy an evening out occasionally at the club if they are running events, but would not expect it to stay open past any normal pub opening hours.

Kind Regards
