RE: LICENSING ACT 2003

Mad Squirrel, 3 King Street, Watford WD18 0BW

Reference: 21/00505/PRE

Dear Mr Austin Young,

We would like to object to the license for the above referenced application for the stated reasons below.

Prevention of public nuisance: We live above the premises and would not appreciate noise, vibrations, noxious smells, pollution or litter outside our home.

We would not appreciate the late hours of operation and loud music at night. We do feel that this license will lead to an increase in crime and disorder, continuous late-night noise 7 days a week which is unacceptable.

We would also not appreciate the litter and pollution that would be left outside our home from customers visiting these premises.

Public Safety: As we live in the building above the premises, fire safety would be a massive issue.

Crime and disorder: Any anti-social behavior on the premises can be heard upstairs and we would hate to be living above any such venue that is selling alcohol which increases anti-social behavior. The noise will intolerable and would disturb our family.

This application makes many of us that live above the premises very worried for the type of noise, loud music, anti-social behavior and litter it would bring, and it would not be a safe environment to live in.

I look forward to your response on this matter. Please keep me informed.

Kind regards,

Mr and Mrs Imran Omar.
